

CORACLE 250

Nautiraid's coracles are folding dinghies for inland waterways or sea use. They are the ideal classic tender for yachts. Three sizes are available: 1.90m, 2.50m and 3m. All Nautiraid dinghies have come equipped with inflatable side bladders (Stabilairs), making the boat unsinkable and boosting its stability and rigidity. Coracles offer better dynamic handling with oars than inflatable dinghies, are faster to assemble and can be powered by electric or petrol outboard motors (max. 3hp).

 **Assembly time:** 5 min
