

## UMIAK 390

The Umiak 390 features a canoe hull while still allowing its occupants to paddle like in a kayak with a double bladed paddle. This unique concept is an alternative to fully inflatable kayaks. The Umiak 390 frame is 5 aluminium tubes, giving it unrivalled rigidity in its category. With smooth lines, the Umiak boasts greater hydrodynamic properties. Its low pressure inflatable sides need no tedious inflating (kite-surfing's 'bladder' technique). This gives you greater internal space.

The Umiak 390 is a 3-in-1: you can paddle it like a kayak alone or with another person, and you can also paddle it in canoe mode with the raised seat (optional extra). Another bonus is that the Umiak fits in one bag, with a weight of 15kg. The canoe-shaped hull means you can go down Class II rivers as well as do coastal paddling.

 **Assembly time:** 15 min

### SPECIFICATIONS SINGLE- AND TWO- SEATER 390 X 79 CM

**Weight :**  
16 kg

**Maximum load :**  
190 kg

**Frame :**  
Aluminium

**Dimensions of bags :**  
110 x 65 x 15 cm + 118 x 50 cm
