

## NARAK 460

The Narak 460 is Nautiraid's coastal kayak. Shorter and lighter than the Narak 550, it features its big sister's hull lines while being wider with a more spacious cockpit. This makes it ideal for both experienced and beginner river and sea paddlers. The keyhole coaming can hold all sizes of paddlers while making it easier to position your knees. You can order your Narak 460 with or without Stabilairs® to suit your needs and paddling plans. The Narak 460 is available with a choice of wooden or aluminium frame.

 **Assembly time:** 25 min
